

SENATOR Sprague thinks, says a Washington correspondent, that the effect of negro voting in Rhode Island will ultimately be to make it a Democratic State. By the provision it naturally creates among the white working men.

PROSPECTUS.
UNDER the patronage and influence of prominent land holders, I have begun the preparation of a series of LITHOGRAPH MAPS of some of the Counties of the State of South Carolina, accompanied by suitable letter press descriptions.
The object proposed is the circulation of 50,000 copies of these in pamphlet form, far and wide throughout the country, inviting the industrious working man, with or without capital, and from whatever quarter of the globe he may come, to seek a home in our State, particularly that portion known as the upper belt, so abundant in minerals and building material, with almost unlimited water power and blessed with a soil that will abundantly repay the labor of the industrious and intelligent agriculturist.
To the Manufacturer, this pamphlet will show where valuable water power may be had, with amount of land attainable, price of land in vicinity, and railroad and market facilities. To the Miner, it will be a guide as to where he may either find or purchase lands, on which the valuable metallic ores are known to exist.
To the Farmer, good and cheap lands will be offered through the agency of the State, with description of their quality and surroundings.
To the Laborer, it will indicate where profitable employment may be found, with local rates of wages.
On the other hand, to the large land-owner, it affords a medium for advertising his lands, water powers and other interests as tend to attract an influx of both labor and capital.
To Railroad Companies, Land Agents, &c., who have a deep interest in the rapid settling up and development of the resources of the State, and are desirous of bringing their claims to attention before the world, no better medium can be afforded.
All those feeling a real interest in the future prosperity of our State, and approving the mode proposed for the development of its resources, by attracting immigration of the right stamp, and who may be desirous of obtaining information as to further details of the plan, with terms, &c., can obtain such by addressing the undersigned.
